

To Whom It May Concern:

Bethany and I first met in March, 2007, when I interviewed and subsequently hired Bethany to be the student manager for the women's basketball team.

I have now known Bethany for three years. She was the student manager for the women's basketball team for the 2007-08 and 2008-09 seasons. During the 2009-10 season she worked as a student assistant coach. Bethany's contributions to the team and program were invaluable. All of the work she did "behind the scenes" for the players and coaching staff was outstanding. She went above and beyond what her responsibilities entailed.

Bethany was very dependable, trustworthy, and diligent about her responsibilities. Not only did she perform her duties at a high level, she did so with great enthusiasm. The players had great respect and love for Bethany - they did not treat her as a 'manager', but as a truly valuable member of the team.

She has a neat, friendly, out-going personality with a great sense of humor. She has the ability to communicate with individuals of all groups – peers, instructors, personnel in various departments on campus and supervisors. She is a dependable and loyal person with whom to work.

I strongly encourage you to give Bethany Sanderson's application positive and significant consideration. I recommend her highly and without reservation.

Sincerely,

Tara Kreklau  
Women's Basketball Coach  
Assistant Athletic Director
